myWall.

THE PEGWALL  
THAT FITS YOUR  
LIFESTYLE.

[www.mywallpro.com](http://www.mywallpro.com)

myWall is the World's Premium Pegwall System that provides the ability to customize any wall to fit your lifestyle or business. The myWall Pegwall panels are easily hung in minutes, and have unmatched strength. With over 50 accessories, the system can be customized for any need.

## BE KNOWN AS A CREATIVE PROBLEM SOLVER

As an interior designer, you need to make the most of your client's space while remaining true to their style. In order to do that, consider a multi-functional pegboard wall system that can adapt to any setting.

## MOST DISPLAY AND STORAGE PEGWALLS LACK APPEAL

Most display and storage wall systems provide limited functionality, lack aesthetic appeal, and can't easily adapt when you need to update the space. We believe you should be able to provide a solution that works in any room, introduces a variety of application options, and can change whenever your space or interests demand.

**PROVIDE A  
SOLUTION  
THAT WORKS  
IN ANY ROOM.**

Introduces a variety of application options, and can change whenever your space or interests change.

**HANGING TVs, DESKS, LIGHTS, PICTURES,  
AND SHELVES HAS NEVER BEEN EASIER.**

We understand how difficult it can be to maximize your client's space and meet all of their storage and display needs while still complimenting the room. We created the myWall premium pegboard wall system that allows you to design personal and functional settings that work Today and Tomorrow.

**Don't limit your imagination on short-term design solutions and instead deliver a creative design option with our premium peg board wall system that can adapt to any setting.**
